PROTECT STUDENTS & FACULTY IN:

SCHOOLS

UNIVERSITIES

OFFICES

Social distancing barriers are becoming commonplace in 2020's "new normal" by performing two critical functions:

- ✓ Intercepting respiratory droplets
- ✓ Re-enforcing physical distancing, even when people are forgetful

With Airline's barriers, physical protection is automatically in action, so teachers and students can focus on what's most important -- **teaching and learning.**

SOCIAL DISTANCING BARRIERS

for the 2020 - 2021
school year!

CUSTOM BARRIERS

From concept to completion, we can create any solution to meet your layout, safety needs, and budget.

Concept

We'll examine photos and collaborate with you to create a concept sketch.

Design

Our designers will generate finalized CAD drawings for your review.

Manufacturing

Our team of assemblers will spring into action to build your barriers.

Installation

We'll ship the barriers (freight), or travel to your school to install them.
