

Airline

Products and Solutions to Power Your Ideas

Products and Solutions for Snow and Ice Equipment

ISO 9001:2015 Certified

Airline provides a clear path to best-in-class hydraulic pumps, motors, valves, filters, hose, couplings, accessories, and lubrication solutions.

Products & Services for:

- Snow Plows
- Salt Spreaders
- Hopper Conveyors
- De-Icing Equipment

We know our business... we own it!

Your single source for fluid power components & systems

Airline Hydraulics Corporation is a leading regional distributor of fluid power and custom engineered technology solutions. We are your regional authorized distributor for Bosch Rexroth, HYDAC, Walvoil, Parker Fluid Connectors and many other manufacturers of high-performance components. We have designed and built many systems for snow and ice mobile machinery, including:

- Sectional, monoblock and manifold/cartridge valve assemblies
- Pump blocking assemblies
- Integrated spinner/conveyor proportional blocks
- Heavy duty cab or chassis-mounted reservoirs

Airline is ISO 9001:2015 certified, providing quality products, engineering, manufacturing and repair services.

Bosch Rexroth Hydraulic Pumps, Motors & Valves

Airline offers a complete range of highly efficient pumps, motors and valves using Rexroth's advanced technologies. Choose from Rexroth's A10VO variable displacement axial piston pump with load-sense compensator (shown above), Rexroth gear pumps and motors, radial piston motors, Rineer high-torque vane motors or mobile valves such as the M4 load sensing valve (also shown above). We also offer new or refurbished OEM replacement parts on www.airlinehyd.com in our Hydraulics Components product category.

Parker Gerotor Hydraulic Motors

Parker's full line of high and low speed motors provide power ranging up to 15,000 inch-pounds of torque with speeds ranging from 1/2 rpm to 13,000 rpm. A complete range of sizes is offered in gear, gerotor, vane and piston style operating configurations. Both fixed and variable displacement options deliver excellent performance with high efficiency, true wear compensation and longer service life.

Casappa Pumps & Motors

Airline carries Casappa's wide range of gear and piston pumps and motors. The MVP Series variable displacement axial piston pump (shown left) is ideally suited for open circuit mobile hydraulic applications.

Hydro Leduc Axial Piston Pumps

Hydro Leduc TXV variable displacement, load-sensing pumps are particularly attractive solutions for applications in salt spreaders and snow and ice equipment. In addition, Hydro Leduc offers narrow housing pumps which are ideal for vehicles with automatic transmissions.

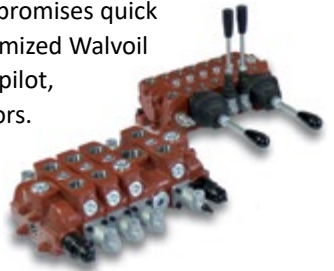

Murrelektronik Connection & Cabling

The *xtrème* series MDC06-2s connector is a pre-wired valve plug compatible with the DT06-2s Deutsch® standard. This 2-pole connector, complete with locking mechanism, is very resistant to shock and vibration.

Walvoil Sectional Valves

Airline's stocking/build program promises quick delivery on off-the-shelf or customized Walvoil DLS8 and SDS150 with cable, air-pilot, proportional and manual operators. Load sensing and open or closed center assemblies are available (for use with variable or fixed displacement pumps).

HYDAC Filtration

HYDAC, the industry leader in hydraulic filtration products, offers an extensive line of hydraulic filters including high, medium and low pressure filters for a range of applications including inline, return line, in-tank, duplex, spin-on, suction and manifold-mounted, as well as a wide range of filter elements.

HYDAC Mobile Valves

Directional control valves are available with manual, cable, pneumatic, hydraulic and electro hydraulic valve controls.

HYDAC Reservoir Accessories

Reservoir accessories include baffle (standard), sight gauge, low oil sensor, in-tank return filter, fill and drain ports, and clean-out cover.

Parker Fluid Connectors

As a Parker Fluid Connector distributor, Airline carries Parker's full line of high-quality hose and hose fittings, tube fittings, thermoplastic tubing, stainless steel fittings, brass fittings and valves, quick-disconnect couplings and assembly tools.

Lincoln/SKF Lubrication Solutions

Together, SKF and Lincoln offer a complete portfolio of automatic and hand-held lubrication equipment. As an authorized distributor, Airline offers sales, system design, installation, service and repair of SKF and Lincoln lubrication products.
