Retrofitting, Remanufacturing or Long Life Service – turn back time

We currently guarantee the serviceability of our DIAX02/03 and ECODRIVE01 product families through the end of 2013. Turn back time and safeguard the availability of your machines through to the end of 2020 and beyond. We offer solutions for refurbishing and maintaining your proven drive and control components.

Advantages

▶ Reduced unplanned downtimes
▶ Lower production costs
▶ Greater production reliability
▶ Longer machine running time

Serviceability through 2013

Component overview

DIAX02/03 family

▶ Supply unit: TVD, TVR, KVR, KDV
▶ Drive control unit: DDS, DDC, DKS, TDA
▶ Motors: 2AD, MDD
