Installation Instructions for SBRL34-P70

- Plastic slide bolt SBRL34-P70 with actuator included.
- Interlock Switch TL4019 or T4012 series.
- Optional Real Release Handle.
  SBLK34-R50 for TL4019 Rear Release Models.

Attention: Due to high forces and kinetic energy the bolt and switch bracket can breakdown. Make a risk analysis before start up.

1) Bolt with detent mechanism. When the bolt is open, the knob engages preventing unintended closing. Unlocked by pulling the detent knob upward.

For left-hung doors mount actuator on this side and change operating direction of safety switch and bolt.
