Ideal for the Food and Beverage Industry

SIGNALING AND LIGHTING SOLUTIONS
SIGNALING AND LIGHTING DEVICES FOR THE FOOD & BEVERAGE INDUSTRY

PATLITE has a wide offering of LED Signal Towers, LED Work Lights, LED Warning Lights and “Smart” MP3 Programmable Audible Products that meet various requirements of Food and Beverage processing facilities from areas that are regularly washed-down to warehouse and shipping.

We have products that meet the needs of meat/poultry/fish processing and other food and beverage facilities where it’s important to keep equipment clean of salmonella and other bacterial issues. PATLITE’s products can withstand high-pressure & high-temperature washdowns (IP69K) without any protective enclosures, greatly reducing material and labor costs. Our products are designed with smooth surfaces so debris and foreign objects do not accumulate and can be easily washed off. There is no worry about glass or other particles falling into food because PATLITE uses durable and suitable materials. PATLITE also offers products for warehouses, refrigerators, and freezers, able to withstand extremely cold environments, down to -40°C (-40°F).

THE LS7-9 IP69K LED SIGNAL TOWER

High Pressure, High Temperature Washdown

- Ideal for high-pressure, high-temperature washdown (IP69K)
- Affordable price
- Smooth surface so no food adheres to surface
- Available with or without alarms
- Bright, long-lasting LED technology
- Lead wires or M12 quick disconnect
- Includes ½” NPT socket
- DC24V

Optional Part: M12 CABLES
- SZ-120-02 (2m)
- SZ-120-05 (5m)
- SZ-120-10 (10m)

THE LS7-7 LED SIGNAL TOWER

IP67 Low Pressure Washdown

- Suitable for washdown (IP67, IP65 with alarm)
- Smooth surface so no food adheres to the surface
- Bright, long-lasting LED technology
- Available with or without alarms
- Lead wires or M12 quick disconnect
- DC24V

Optional Part: WALL MOUNT BRACKET

- SZ-100 (Off-White)
- SZ-100D (Dark Gray)
- SZ-100S (Silver)

NOTE: for LS7-7 only

Optional Part: M12 CABLES
- SZ-120-02 (2m)
- SZ-120-05 (5m)
- SZ-120-10 (10m)

Optional Part: 150MM PEDESTAL

- SZ-110 (Off-White)
- SZ-110D (Dark Gray)
- SZ-110S (Silver)

NOTE: for LS7-7 only
THE CLA LED LIGHT BAR

“Such a safe light compared to my old fluorescent tubes...”

- Ideal for high-pressure, high-temperature washdown (IP69K)
- 7 lengths – 100mm to 1500mm
- Bright, long-lasting LED technology
- Stainless steel & magnetic mounting brackets available
- Available in: Daylight, Natural White, and Amber (100mm & 300mm)
- Replace fluorescents
- DC24V

Optional Part:
- SZ-310AR (Standard)
- SZ-310ARM (Magnetic)
- SZ-310AS (End Mount)
- SZ-310ASB (Side Mount for CLB Type)

THE CLK LED LIGHT BAR

“I really like the brightness and robust design...”

- Ideal for high-pressure, high-temperature washdown (IP69K)
- Oil and Water resistant (IP66G, IP67G)
- Bright, long-lasting LED technology
- Stainless Steel or Aluminum casing
- Glass or Acrylic lens options
- 0.5m cable or M12 Quick Disconnect
- Daisy-chain connectable
- DC24V

Optional Part:
- STAINLESS STEEL SWIVEL BRACKET SZ-320KS
- OUTER MOUNTING BRACKET CLK-001
- SURFACE MOUNTING BRACKET SZ-330KP
- 0.6 M LINK CABLE
  - 1518892 (Aluminum Connector)
  - 1552638 (Stainless Connector)
- 5M M12 CABLE
  - 1536308 (Aluminum Connector)
  - 1552447 (Stainless Connector)

THE CLN LED SPOT LIGHT

“LEDs are much cooler than the halogen lamps we used.”

- Ideal for high-pressure, high-temperature washdown (IP69K)
- Oil and Water resistant (IP66G, IP67G)
- Bright, long-lasting LED technology
- Daylight White or Warm White LED
- Flexible mounting angle adjustment
- DC24V
THE LFH LED WARNING LIGHT

- Suitable for washdown (IP66)
- Indoor or Outdoor usage
- Bright, long-lasting Outdoor visible LED technology
- Adjustable LED brightness to fit the environment
- Five LED and Dome colors to choose from
- High vibration resistance - 9G
- 110 flashes per minute
- DC12V, DC24V, or AC100-240V

THE NE-M1-CL7 LED SIGNAL LIGHT

- 7 diverse color configurations - All in one unit
- Bright, long-lasting LED technology
- Compact size - 57mm diameter
- Protection Rating: IP66, IP67
- 1/2” NPT adapter available
- Lead wires (2m)
- Rated Voltage: DC12V to DC24V
- UL, CE, RoHS
- LED colors available in one unit: Red, Yellow, Green, Light Blue, Blue, Purple, and White

Optional Part: 1/2” NPT adapter (made of nickel plated brass, part No. NE-NPT-BR)
Optional Part: 1/2” NPT adapter (made of nylon, part No. NE-NPT-BK)

THE EHS / EHV MP3 ALARM PLUS

- Suitable for washdown (IP65)
- You Say It, We Play It. User recordable messages with MP3 files (EHV)
- 32 Pre-recorded sounds (EHS, 63 for EHV) to easily distinguish various conditions
- Adjustable volume up to 110 dB (105 dB for voice)
- Up to 220 sec recording time (@64kbps, EHV)
- High vibration resistance - 4.5G
- DC12-24V or AC100-240V

"I couldn’t figure out what the buzzer meant... Now I have a solution.”
